Shangri-La Hotel Jakarta

Speaker Profile

Soyeon Yi, PhD/MBA

Loft Orbital Solutions Inc.

Dr. Soyeon Yi is South Korea's first astronaut who completed 11-day mission at the International Space Station in 2008. Currently, Dr. Yi is working with Silicon Valley-based satellite startup, Loft Orbital Solutions Inc. as the strategic business development & international partnerships. Dr. Yi is passionate about nurturing the next generation of leaders in STEM; she is not only volunteering for various non-profits as an inspiring speaker but also lecturing at colleges and universities.

Dr. Yi received her Bachelor of Science, Master of Science in Mechanical Engineering and her Ph.D. in Biosystems from KAIST (Korea Advanced Institute of Science and Technology). Recently, Dr. Yi received her MBA with emphasis on Technology and Global Leadership at the Haas School of Business, University of California, Berkeley.

Ali R. Ebadi

MEASAT

Ali R. Ebadi is Advisor to Board of Directors of MEASAT. He has more than 30 years experience in field of Satellite Communications and Spectrum Management besides being actively involved in ITU's activities. He served 8 years as member of Radio Regulations Board, ITU. He was Vice-Chairman of RRB in 2008 and Chairman in 2009.

He is member of Institution Engineer of Australia (IE Aust) as Chartered Professional Engineer, member of The Institution of Engineering and Technology (EIT) UK as Chartered Engineer and member of Malaysian Institute of Engineer (IEM).

Yvon Henri

OneWeb

Yvon Henri has over 30 years' experience in the satellite communications field and has worked on space policy and regulatory affairs in both the public, private sectors and intergovernmental organizations at France Telecom (Paris, France), INTELSAT (Washington DC, USA) and the ITU in Geneva (Switzerland) where he was Chief of the Space Services Department (SSD) up to June 2017. Throughout his professional career, Mr. Yvon Henri has always strived to initiate, develop and promote policies to enhance the opportunities afforded by the telecommunication/ICT sector with focus on the adaptation of space services to the constantly evolving world.

Jose Del Rosario

NSR

Mr. Del Rosario covers the Asia Pacific region and is a senior member of the consulting team where he focuses his research on quantitative modeling, data verification, and market forecasting for the commercial and government satellite communications sectors. Prior to joining NSR, Mr. Del Rosario worked with Frost & Sullivan, the U.S. Agency for International Development (USAID), the European Commission, the Malaysian Embassy and the Law Offices of Irwin & Lesse. Mr. Del Rosario holds a
